

Track Entities. Visualize Relationships. ®

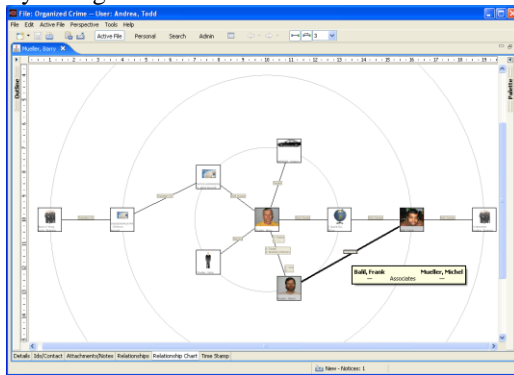

Overview

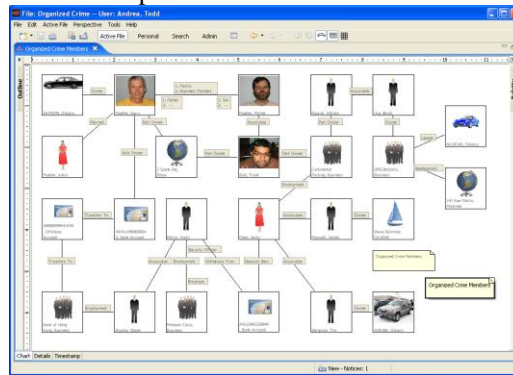

REX™ is Agnovi's world-class intelligence solution. Designed specifically for gathering intelligence on gangs, criminal organizations, suspects, offenders, etc. **REX** includes a relational database for storing structured intelligence data (entities, corroborating events, etc.), advanced searching and instant collaboration. Additional benefits include ease-of-use, scalability, attachment support (text, images, audio, video, etc.), report generation, system administration, multilingual support, security (privilege-based access, usage auditing, event notification, encryption, etc.) and more....
