

# X-FIRE Lite™ Investigation and Criminal Intelligence Database Software

Easy-to-use and affordable.

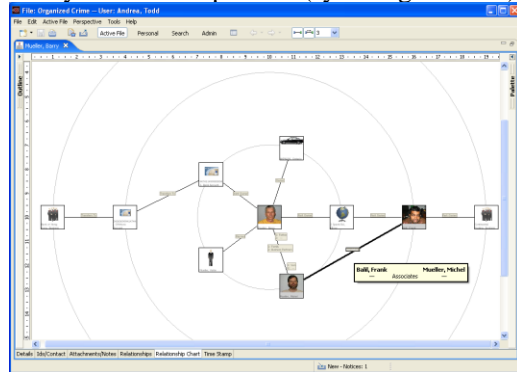

## Overview

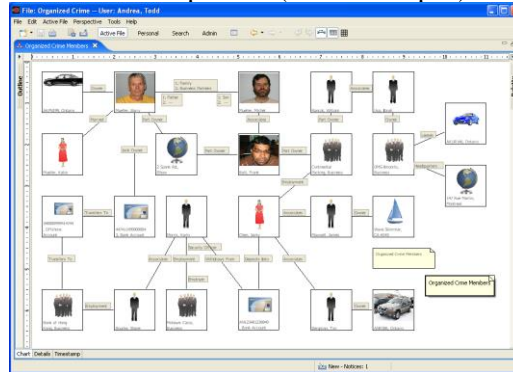

X-FIRE Lite was designed with small teams of police and law enforcement in mind. Its easy-to-use interface helps you manage investigation and intelligence information. You can easily document, search and report law enforcement activities (e.g. statements, tactical operations) and subjects (e.g. suspects, offenders, informants, places and things). X-FIRE Lite uses a relational database (MySQL, SQL Server, or Oracle) for storing structured investigative information, advanced searching and instant collaboration. Other X-FIRE Lite benefits include scalability, attachment support, report generation, Web-based, security and more...

## Screen Shots

Entity Relationship Chart (system-generated)

File Relationship Chart (user-developed)

Editing an Entity (e.g. known criminal)

Searching the Database (e.g. for a suspect)

## Your Benefits

- ✓ Easily track, analyze, and investigate suspects and criminal organizations
- ✓ Leverage investigative information with the click of a button
- ✓ Adhere to storage and dissemination guidelines for law enforcement data
- ✓ Guarantee efficient and effective investigations and intelligence probes

## Why Agnovi X-FIRE Lite?

Agnovi experts have extensive experience working with top investigators and lead investigative agencies, developing solutions that meet their needs. Agnovi is an innovative company, carefully crafting X-FIRE Lite to ensure optimal functionality for our clients.

Database Software  
Easy-to-use and affordable.**

## Hardware Requirements

The user-interface can be accessed using a desktop client or recent Web-browser (e.g., Chrome, Edge, Firefox). The client and server components are currently available for the Microsoft Windows platform (recommended Windows 10 and later).

Client Hardware	Minimum	Recommended
Processor	Dual-core	
Memory	1 GB	2 GB
Hard Disk Space	1 GB + space for saved reports	
Display Resolution	1024x768	1280x1024

Server hardware requirements vary depending on concurrent usage and data volume.  
A dedicated **X-FIRE Lite** server is recommended.

Server Hardware	Minimum	Recommended
Processor	Dual-core	Quad-core
Memory	4 GB	8 GB
Hard Disk Space	1 GB + data and document volume	

[Contact Agnovi](#) for more details including **X-FIRE Lite** demonstration and training options.
